	If any fencing, color and materials shown?	<input type="checkbox"/>	<input type="checkbox"/>
	Post light size, shape, style, and color acceptable?	<input type="checkbox"/>	<input type="checkbox"/>
	Address block material acceptable?	<input type="checkbox"/>	<input type="checkbox"/>
	Mail Box acceptable? (published style only)	<input type="checkbox"/>	<input type="checkbox"/>
	Tracking pad materials acceptable? _____	<input type="checkbox"/>	<input type="checkbox"/>
Landscape Plan	The final plan may be submitted for approval, with permission , after the building is begun but before a certificate of occupancy. Approval of landscape contractor must be made by Declarant. Grass or lawn is required within 180 days of Certificate of Occupancy or less if a winter intervenes and with permission, otherwise it must be done in same season.	<input type="checkbox"/>	<input type="checkbox"/>

Disclaimer and Signature

The lot owner is responsible for his/her builder and subcontractors. For example, dirty streets or driving across the drainage areas will cost the lot owner for repairs and clean up. Using another lot for staging or deliveries is forbidden without the other lot owner's specific permission. The builder should be aware of the covenants and restrictions and should be in contact with Promontory Ridge, LLC to coordinate their plan. If this application is by a builder owning the lot to be transferred to a resident lot owner at a later time, please be aware that the covenants and restrictions mandate that a letter from the association or from Promontory Ridge, LLC is required at **every title transfer**. This letter will indicate whether the above plans have been approved and whether the property appears to conform to the covenants and restrictions. All changes to plans after acceptance must be resubmitted. Maintaining silt fencing and drainage ways is the lot owner's responsibility until grass is well established. Any silting of any drainageway, on the lot or in the ROW caused by erosion from a lot is the lot owner's responsibility even if upstream silt is being passed on. The lot owner should maintain a file of written acceptances by the Association, Promontory Ridge, LLC, and all governmental authorities. **Builders should pass along a copy of all acceptances (this form) to future purchasers since this acceptance runs with the land. Do not build or apply materials or colors until the plan is approved. You may be required to remove, tear-down, or in some other manner change the builder/grounds.**

I certify that my answers are true and complete to the best of my knowledge.

I have a copy of the current covenants and restrictions and agree to abide by them.

Date: _____

The lot owner or builder should read the architectural guidelines published by Declarant, Promontory Ridge, LLC, in order to provide the needed exhibits, if any. The items listed above should be addressed in submittals and in the application meeting. See www.lreg.net/hc.htm for updates. Lot owners should maintain a copy of this document as part of their long term file on the property and pass it along to new owners.

The village has asked us to remind people that in areas where there is no curb and gutter and the lot owner wishes to use a concrete driveway, the first four feet from the street, the apron, must be asphalt and not concrete. HC does NOT have curbs and gutters.

Silt fencing or other erosion control is governed by Federal, State, Local laws and the Subdivision.
